

## Student Letter Requesting Remote Learning for the Fall Semester 2020

**All materials due by September 8, 2020 at 11:59 p.m. to  
[access@medaille.edu](mailto:access@medaille.edu)**

Medaille College will be delivering its courses in a variety of formats in the fall. These formats allow for 50% or less capacity in classrooms, allowing for social distancing, and all students will be required to wear masks at all times. Science Laboratories will have additional safety measures. Classrooms will be cleaned, daily, along with tabletops or desks being wiped down multiple times a day.

*Please note that not all courses or requirements can accommodate remote learning, so be aware that approval for remote learning may result in changes to your schedule to substitute courses that are online, and also result in some difficulty in the sequencing of required courses for programs.*

Please explain the following:

1. What is the medical-related reason for your request for remote learning, for the Fall 2020 semester?
2. Is this request for flexibility in remote learning, on an "as-needed" basis OR is the request for an entirely remote learning?

**Letter from Medical Professional Related to Student Request for Remote Learning  
Fall Semester 2020**

**DUE August 24, 2020 at 5 p.m.**

---

(Name of Student at Medaille College)

has requested that Medaille College allow him/her to attend classes remotely during the Fall semester 2020, due to medical reasons. Medaille College will be delivering its courses in a variety of formats in the fall. These formats allow for 50% or less capacity in classrooms, allowing for social distancing, and all students will be required to wear masks at all times. Science Laboratories will have additional safety measures. And classrooms will be cleaned daily, along with tabletops or desks being wiped down multiple times a day.

*Please give a summary of your relationship to the student and your medical position in relationship to the student. Then give an explanation for the medical reasons for this student needing remote learning and some explanation as to whether this will require the student to be 100% remote or whether the need is for flexibility in accessing classes remotely. (Feel free to attach a letter explaining the situation).*
